

Please return this form ASAP

In December 2021 the EPA mandated that all water systems create a Lead Service Line inventory. This will be a long process and Hardinsburg Municipal Utility will need its customer's assistance with this effort. We will be required to not only identify the Districts service line, from the main line to the meter, but also the customer's service line, from the meter to the home.

In order for us to create an accurate inventory, we need you to answer a few questions about your home and plumbing. Please either answer the questions on this survey and mail back to us or go to our website and fill out the form there. Hardinsburg Municipal Utility greatly appreciates your assistance with this effort. It is very important to us that we continue to stay in compliance with current regulations.

1. Customer Name: _____
2. Service Address: _____
3. Phone Number: _____, primary _____, secondary
4. Email Address: _____
5. Are you the owner of the property: _____
